a
Where training draws land
loss floor
power p = 3
late-time mix
uniform
full band
narrow band
Pr(1 − s < ε)
ε
b
What a too-wide model costs
late-time mix
uniform
rings: quadrature
lines: asymptotes
excess loss ΔL
model width σm/s0
c
What the sampler returns
512 steps
128 steps
32 steps
full band
narrow band
sampled / true width
true width σ/s0
